

## Welcome Back!

After a summer of sizzling fun, the fall semester promises to be even more exciting.

Open House & Back to School Night will be on Tuesday, September 29, 2009 from 6:00 to 7:00 P.M. Parents wishing to sign up to provide snack treats or pizza lunch day may do so through Teacher Julie in the morning. All parents and family are invited to attend.

## Tae Kwon Do

Pre-K student Dane Hawkinson will be challenged this month while testing for a belt promotion. He may be one of the youngest members of his Tae Kwon Do class, but don't underestimate him. At the age of 3 it is a huge compliment by Master Kim to acknowledge his talent. Just days before his 4th birthday, Master Kim said "It is time to move to the next level". It is still not known whether he will attain his yellow belt, but to his Dad, Mom and Sister Jade, he has already proven himself more than ready.

## Student Pick-up Time

School is out at 3 p.m. daily. Please do not pick up students from school before 3 p.m. as this interferes with studies and school activities.

## Uniforms

For information regarding school uniforms & more choices, please go to [www.StartingGateSchool.com](http://www.StartingGateSchool.com) and click on **Dennis Uniform** at the bottom of the home page. Our school code is N57SGS. To preview the new uniforms required for students in Fall, 2009 visit the Sun Room.

Due to overwhelming demand, the color Navy has been included as a choice for the preschool girl's jumper.

## Leaving at 3 ?

Student's leaving school at 3:00 p.m. may be dismissed through the playground gate once the teacher on yard duty has signed them out.

## Payments

To ensure our high caliber of staff, please make your tuition payment at the beginning of each month. A late payment fee of \$25.00 will be added to past due accounts on the 5th of each month.

## Portable Basketball Hoop

We are in need of a portable basketball hoop.

## School Plants

Beginning in late September & early October, we will begin refurbishing the plant life on the school grounds. To ensure healthy plant life, natural compost will be introduced. The initial repugnant odor that occurs from this recycling process will soon dissipate and is a sign of plant regeneration.
